📍 Telangana ,Hyderabad

SUMMARY

Experienced Front-end/UI developer with 3 years of expertise in creating captivating and user-focused web interfaces. Proficient in HTML5, CSS3, JavaScript, Typescript,Angular (various versions), Bootstrap, with a focus on creating dynamic web apps through RESTful API integration. Skilled in creating responsive web applications, SPA development, and UI design concepts.Agile practitioner with expertise in debugging, problem-solving. Proficient in front-end development, I have a strong command of modern web technologies and a proven track record of delivering high-quality digital experiences.

EXPERIENCE

Custom Software Enginnering Analyst

Accenture

📅 12/2021 - Present   📍 Nanakaramguda, Telangana 500032, Hyderabad

In my current role as a UI Developer at Accenture, I'm an integral part of the myDiagnostic project. As a UI Developer, I'm responsible for crafting visually stunning and user-centric web interfaces that seamlessly blend design and functionality. I work closely with the design team to translate concepts into reality and ensure an exceptional user experience across various devices and screen sizes.

- In addition to HTML, CSS, and JavaScript, I also gained proficiency in Angular, RxJS for asynchronous interactions TypeScript, jQuery, Bootstrap, JSON, allowing me to build dynamic and highly interactive user interfaces.
- Over the span of two years, I took on more complex projects, displaying an in-depth understanding of front-end technologies and design principles.
- My role encompassed optimizing web applications for speed and performance, and I actively kept learning of emerging trends in UI development to integrate innovative features and techniques.
- Led the development of complex web applications using Angular, collaborating with design and backend teams.
- Developed and maintained modular and reusable UI components, adhering to industry coding standards.
- Mentored junior developers, providing guidance on coding practices and fostering their professional growth.
- Practiced Agile methodologies as a developer, ensuring iterative progress, effective communication, and timely deliverables.

Application Development Associate

Accenture

📅 10/2020 - 2021   📍 Nanakaramguda, Telangana 500032, Hyderabad

- I actively participated in designing and developing user interfaces that enhanced the overall user experience of our digital products.
- Collaborating closely with the design and development teams, I translated wireframes and mockups into functional, responsive, and visually appealing web interfaces.
- I gained proficiency in HTML, CSS, and JavaScript, utilizing them to create interactive and engaging front-end solutions.
- I also conducted thorough testing and debugging to ensure cross-browser compatibility and optimal performance.
- Through regular code reviews and feedback cycles, I continuously improved my coding practices and adhered to industry best practices.
- Collaborated with senior developers to implement JavaScript functionality, gradually expanding proficiency in scripting and interactivity.
